Hi All

The Lynx Sliding and Cantilever Gate Hardware Range has kicked off with a bang. We have been busy training staff and customers, updating pricelists, catalogues and websites. The feedback we have received from our customers has been really encouraging in terms of both quality and pricing.

In our haste to introduce our new sliding and cantilever range to you, we made an error in our costing model. As a result the pricing of our tracks has been substantially reduced. Our latest up to date price list is available on www.aspl.co.nz in the downloads section.

New this month

LYNX OFFSET CENTRE BANDS NOW AVAILABLE

We now have a more comprehensive range of Lynx Offset Centre Bands available for purchase. These are 100% hot dipped galvanized and are used to secure horizontal or diagonally placed pipe braces in fencing. In New Zealand these products are predominantly used in the South Island.

LYNX EXTERNAL TUBE BRACKET NOW IN STOCK

The Lynx External Tube Bracket (BT4025RE-2h) used to attach selected Bulldog fence panels that make use of 40x25mm RHS horizontal rails to posts are now available. These new externally fitting brackets do away with the need for tamper-proof bolts. They also allow for limited raking of the panel.

ASPL'S NEW RANGE OF PRE-FITTED FENCE POSTS

We can now supply fence posts which have been pre-fitted with attaching panel brackets. This will save you time and money as contractors will not have to carry out this task on-site.

When ordering your pre-fitted post, it is important that you specify which brackets you want fitted.

Visit our website (www.aspl.co.nz) or call us on 0800 FENCE NZ for more information on any of our new products or services.

SPEEDY CREDIT NOTES!!

If you are returning items to us for credit, Hazel has asked that you please include a copy of the original invoice or packing slip along with the reason for return; i.e. 'customer ordered the wrong size'. This will ensure that your credit notes will be processed quickly.

Many thanks,
Hazel
