Hi all

Last year ASPL celebrated 10 years of operation. From humble beginnings, we have been blessed with a company that has grown to become a significant player in the New Zealand market. During this journey we have all had to learn, listen & adapt to the market & customer demands. I personally visit our various manufacturing facilities in China on a regular basis and, as a result, it gives me a lot more personal control over the development of products and standards. In fact, we are probably one of a very few international companies that has a direct financial interest in our manufacturing operations and, also has a Kiwi Quality Control Officer based in China. We are both proud and appreciative for the positive feedback that we have had from so many of our loyal customers in terms of our overall quality (yeah - I know, we are still working on Peter Baker Transport!!).

Due to ASPL's continual product development, we have earned a reputation for being the leading wholesale supplier for providing the best value in the New Zealand market. When you are looking for the highest quality products at an unbeatable price, the first thing popping into your head, should be "ASPL".

From Sean Foster
 (Director)

Monthly Choccie Draw

All fax and internet orders placed during the month go into the draw to win some chocolates.

Congrats to **Richard from Asmuss South Island** for winning this month's draw! Richard, your choccies are on their way!

We here at ASPL believe that staff at Asmuss South Island should try their luck and buy lotto tickets this week...this is the second month in a row they have won ASPL's coveted choccie draw! Well done Asmuss South Island!

New Products

Lynx TFC3232-L

The new Lynx TFC3232-L replaces the current 32NB temporary fence clamp and has been redesigned to offer improved value, being 32% cheaper. The clamp has been designed more efficiently by using less steel but with improved strength being offered through a more contoured profile and uses the industry leading grade 8.8 bolts. The TFC3232-L can be used on both 32 & 40NB pipe.

MasterKlump Balustrades

The MasterKlump Balustrades provide for a sturdy, industrial compliant balustrading solution. They are exceptionally simple to install using our custom made MasterKlump fittings and adhere to the strict safety regulations set out in the "Safety From Falling" standards to 1.5 kN/m (category C). The MasterKlump Balustrade is made to order (indent).

Bulldog Folded Panels

The Bulldog range is yet again expanding. with industry leading folded panels and now includes the following:

- Landscape Panel:** 1000mm high, 6.5mm horizontals and verticals. 2355mm long
- Motorway Panel:** 1205mm high. 8mm verticals & 6.5mm horizontals. 2415mm long
- Security Panel:** 1801mm high. 8mm verticals & 6.5mm horizontals. 2415mm long
